

## GREAT INDUSTRIAL PARLEY PERFECTS ITS ORGANIZATION

Delegates Tangled in Own Rules and Adjourn

## LANE NAMED CHAIRMAN

WASHINGTON, Oct. 7.—After effecting an organization today, the industrial conference called by President Wilson got tangled in its own rules and adjourned until tomorrow.

Secretary Lane was elected permanent chairman. In his speech of acceptance he stirred the delegates, representing capital and labor and the public to great enthusiasm by declaring that the purpose of the gathering was to harmonize industrial relations in this country.

According to the adoption of the conference struck its tent in a protest by John D. Rockefeller, a representative of the public, that the rules committee had provided for minority and was a "travesty" of deliberation. His criticism early adjournment of the session to permit the delegates to be formulated by the public groups, but on reconsideration the rules were adopted for public sessions and the delegates by groups on all matters of importance, and the assent of a group member of it can introduce resolutions.

Resolution Committee. The committee of fifteen were named to recommend for or against all resolutions introduced.

Representing the public—Thomas L. Chabourne, A. A. Land, H. B. Endicott, Charles E. Russell and Miss Lillian Ald.

Representing capital—S. Pennington Hutchinson, John W. Gary, John J. Raskob, Herbert Perkins and J. N. Tittmeyer. Representing organized labor—Manuel Gompers, Frank Morrison, Matthew Woll, W. D. Mahon and L. E. Sheppard.

The employers' group was the one ready, under the rules, to any business. Frederick H. Shufeldt, of Boston, offering a resolution declaring the need of the industrial situation was "increased production, adequate compensation for services and just return of capital" and that each delegate should be guided in his actions by the good of the country as a whole rather than by the interests of his particular group. Disregarding the rules the conference paused in its work.

Members of the public section (the conference held a meeting at which it was said the general attitude they will take toward various labor questions was discussed. Although no specific recommendations or resolutions were formulated it was noted that the general feeling among the delegates of this body was that the group should act somewhat as a balance wheel between the other two factions.

Somewhat of a general agreement was reached by the public representatives. It was agreed that no resolutions or suggestions advanced by that group at the conference, but to permit the labor and the employers group to put forth their suggestions and throw their influence for the best good for the nation. This was not considered as hindering the advancing of suggestions later in the conference.

Representatives of the employers at a group meeting following the general session decided to have a number of experts in various lines of industry as advisory members of their group. The experts will be chosen by each of the four interests forming the industrial conference board. Harlan A. Wheeler of Chicago, acted as chairman of the employers. A resolution was adopted endorsing the policy of the conference to be open sessions and admit the public. It was developed in this conference that it was due largely to the efforts of the employers' deliberations were open to the newspapermen. Mag. W. Alexander, managing director of the national industrial conference board voiced the sentiment of the employers toward day's proceedings in a statement which said:

As the conference progresses employers remain confident and patient and sincere and will point some of the industrial problems toward a just and satisfactory settlement.

## Johnson Speaks to Portland, Ore., Business Men

PORTLAND, ORE., Oct. 7.—Attacks on article ten of the league of nations covenant on the ground that it would "freeze" the world into immutability and put it into a straight-jacket featured two addresses made today by Senator Hiram W. Johnson. He will speak tomorrow in Tacoma and Seattle. "Subject peoples under this covenant would remain subject till the crack of doom," declared the senator today, adding that it would maintain the world under static conditions. Shall we guarantee the boundaries of Japan and the British empire, he asked, speaking at the chamber of commerce and many of his seven hundred hearers answered the question with cries of "No, No."

Describing the league of nations as conceived in stealth and secrecy, Senator Johnson demanded that the people be given an opportunity to investigate it. He declared with propaganda intended to hurry it thru without investigation.

"If I had my way," he declared, "I would adjourn congress three months and let every man go out and preach what is in his heart."

## IMPOSSIBLE TO SAY WHO INVENTED TANK

Eleven Britishers Are Seeking Honor for Numerous Plans Presented Government.

LONDON, Oct. 7.—(By the Associated Press.)—"It is impossible to say that this or that man invented the tank," Winston Churchill, secretary for war, testified in this manner today before the royal commission of awards to inventors which is dealing with the claims of eleven men who are seeking the honor and bounties attached to the invention of this formidable instrument of war. Mr. Churchill testified that from the beginning of the war numerous plans of various types of landships had been submitted. Eighteen of these appeared so feasible that models were constructed and trials were made, and it might be said that the original tank first used in the Somme offensive in 1916 was the result of the experience gained at the trials of each of these eighteen.

Armored cars had failed, said the secretary because they could not get over or around the trenches, whereupon he had called into conference, Vice Admiral Sir Reginald Bacon, the ordnance expert. Admiral Bacon built a motor with bridge to be laid across a trench on the approach and picked up on the return, but this failed to get over a double line trench. Then came tests of machines with huge wheels able to span a wide space but these were discarded. Finally, the caterpillar tractor scheme was adopted, bringing on an extended discussion as to whether they should be constructed to transport troops thru fire swept areas. Out of these discussions came the trials of the Mark One tank with which the inquiry is dealing.

But the caterpillar plan was once abandoned by the war office. Major General Ernest D. Swinton, one of the claimants testified. "It was kept alive in the admiralty because according to a statement by one of the attorneys of Mr. Churchill's belief in the necessity of producing some machine to override the trenches."

General Swinton claims that he is the father of the caterpillar idea, dating back to October, 1914. Among other claimants are Commodore Murray F. R. Suter, Sir Eustace Tennyson-D'Eyncourt, director of naval construction of the admiralty and Sir W. A. Tritton of the ministry of munitions. General Swinton was the only one heard today.

## INVESTIGATES STATUS OF M. E. CHURCH

Berlin.—(Correspondence of the Associated Press.)—It is noted that the indebtedness of the Methodist churches in Finland has been paid by Dr. Lemuel H. Murlin, president of Boston university and member of the war emergency reconstruction commission of the American Methodist church. Dr. Murlin is in Europe to investigate the status of the church in Scandinavian, Finnish, Baltic and German countries. His action is attributed to the favorable rates of exchange he obtained in purchasing the debts.

He may take similar action in Germany where the debt of the Methodist church at normal exchange rates would amount to \$750,000 but now could be paid for about \$100,000. The commission is expected to report the results of its inquiry to the Methodist conference in the United States in 1920 with recommendations for the care of Methodists in Europe.

## LONG TIME MAGAZINE EDITOR DEAD

## 50 PLANES ENTER CROSS COUNTRY AIR TEST TODAY

Ships will Leave at 2 Minute Intervals on 2,700 Mile Jaunt.

## FIRST PLANE LEAVES AT 9 A. M.

MINEOLA, N. Y., Oct. 7.—Air Commodore L. E. O. Charlton, air attaché of the British attaché at Washington, was selected tonight as the first aviator to be sent away from here tomorrow morning in the great transcontinental air race and reliability test to San Francisco and return. Commodore Charlton will fly to Bristol, Mich., and will alternate as pilot with Flight Lieutenant P. E. Trill, also of the embassy staff. At sundown tonight, fifty machines, representing eight different makes, were lined up on Roosevelt Field awaiting the signal which will send them 2,700 miles across eleven states. Seventeen other machines were being prepared for the start.

Sixteen machines were preparing to essay the east bound trip from San Francisco. The contest is limited to military aviators. Commodore Charlton will be sent away promptly at 9 o'clock and one half of the other machines are scheduled to leave in the early afternoon. Word was received here tonight that the first San Francisco entrant would be sent away at six o'clock in the morning (Pacific time). Weather bureau officials tonight predicted fair weather and strong north-west winds tomorrow. These conditions will prevail generally along the course the report said. Statistics figured that the total value of airplanes entered in the race approaches the \$1,000,000 mark.

The only change in the route already announced was the substitution of Rawlins, Wyo., for Wolcott, Wyo., as a control station. At various stops along the route municipal authorities and civic organizations have arranged receptions in honor of the aviators and have co-operated with the army authorities in perfecting the landing arrangements.

Three American "aces" are included in the list of starters. They are Lieutenant Col. Harold E. Hartney, Captain John O. Donaldson and Captain Field Kindley. Other prominent flyers to take part are B. W. Maynard, who took the recent Toronto-New York race; Col. Gerald Brant, Col. C. C. Culver, and Captain de La Vergne, air attachés of the French embassy. Benedict Crowell, first assistant secretary of war will be present as the representative of the war department and Brigadier General William Mitchell, chief of the training and operations group will represent the air service. Aviators will carry 100 letters from government officials of the east to governors and other officials of western states over which the aviators will fly.

## QUIET REIGNS IN CHICAGO DISTRICT

Troops Remain in Control of Several Indiana Cities, With Gen. Wood in Charge.

Chicago, Oct. 7.—Quiet reigned in the Chicago steel strike area tonight after a day of raids on the homes of agitators in Gary where regular army troops are in control. Indiana state troops enforced martial law in East Chicago and Indiana Harbor. The day's chief developments were the Chicago made by General Leonard Wood of the central department of the army and Major H. H. Hodge of Gary that "Reds" had been at work attempting to foment trouble and the raids by the government agents. A number of agitators suspected of radical activities were hauled before the military authorities and numerous others were taken on charges of carrying concealed weapons. None of the alleged radicals was locked up but some of those carrying weapons were still in the guard house tonight.

## PRESIDENT IS WELL ON WAY TO RECOVERY

Altho Another Setback Is Not Out of Range.

WASHINGTON, Oct. 7.—President Wilson's condition improved again today and his appetite, the failure of which has been one of the serious drawbacks to his recovery showed a decided change toward normal. So far had he progressed that his two married daughters, Mrs. W. G. McAdoo of New York and Mrs. Francis B. Sayre of Cambridge, Mass., who came to his bedside several days ago, returned to their homes tonight after consultation with the president's physicians.

Dr. Grayson and the other physicians showed a decided inclination to guard against over optimism, however, as they believe another setback is still within range of possibility. They continued Mr. Wilson's confinement to bed was necessary. Messages of solicitude continued to pour into the white house from all parts of the world. Late today the following telegram reached the white house from President Porras of Panama. "With the greatest pleasure we see by today's cable about the improvement of your health. We crave it will be a turning for the best."

Rear-Admiral Grayson, the president's personal physician at ten o'clock tonight issued the following bulletin. "The president has had a comfortable day and is slightly improved."

## FAVOR UNIONIZATION OF SCHOOL TEACHERS

Sioux City, Iowa, Oct. 7.—That the unionization of the public school teachers would in no wise affect or diminish their loyalty to the state or the value of their service is asserted in a statement to the public prepared by E. C. Willy, secretary-treasurer of the Iowa State Federation of Labor, in reply to a reported utterance of Governor W. L. Harding that the teachers being public servants have no business in affiliating with labor organizations.

## MOOSE WILL EXTEND ORDER TO EUROPE

Baltimore, Md., Oct. 6.—The Lord of governors and associated officers of the Loyal Order of Moose today decided to extend its organization to Europe. The order numbers 625,000 members, of whom 50,000 participated in the world war, 3,100 of them making the supreme sacrifice. Many of the men who survived the fighting have remained abroad and created a demand for European lodges.

ELKS GATHER IN DECATUR. Decatur, Ill., Oct. 7.—Elks from Illinois gathered in Decatur today for the annual state meeting of that organization which opens Wednesday morning.

## BELGIAN KING PILOTS HIS OWN SPECIAL TRAIN

Handles Throttle as Locomotive Speeds Thru Ohio

## CEREMONY AT TOLEDO

CHICAGO, Oct. 7.—Handling the throttle of the locomotive of his special royal train was a diversion for King Albert of the Belgians today as he sped across Ohio, Indiana and a corner of Illinois, passing around the main part of Chicago tonight. The King, Queen Elizabeth and the Duke of Brabant were travelling unofficially on the way to the Pacific Coast. Much of the time Albert wore a flannel army shirt and a cap and few of the townsfolk recognized him as his train stopped or slowed at stations along the route at many of which school children cheering, or bringing flowers were on hand to greet the royal party. The king started the day by eluding the numerous detectives and special agents assigned by the government to watch over him and took a walk along the track, smoking a cigar. He was over taken by a special agent but he was soon a master of the situation by asking more questions than his attendants could answer.

At Watson, Ohio, he took the throttle for ten minutes and had no difficulty piloting the great steel train. Toledo was the city where the chief ceremony of the day occurred. There the king stopped as the friend of Brand Whitlock, American ambassador to Belgium whose services in Belgium during the war won such high esteem of the Belgians.

At Gary, Ind., federal troops were in control of the steel city, as the royal special sped thru. The train bore on thru the maze of mills and tracks of the North-eastern industrial region which adjoins Chicago and the king who had spent a day chiefly in watching the passing country-side got a glimpse of one of the greatest manufacturing and one of the largest railroad centers in the country. His train scarcely stopped moving, but passed slowly about the outer belt line and over switch tracks and finally the job of transferring the special from the New York Central to the Chicago, Milwaukee & St. Paul Railroad had been accomplished. It was planned that a fifteen minute stop would be made at Omaha at 10 a. m. tomorrow. No formalities have been planned, however, at any point of the way to California.

The royal party was driven from the station to the Museum of Art where there was an address of welcome by Mayor Cornelius Schrieber. The route all along the way from the station to the museum was lined with citizens and thousands were banded around the building. While their majestys were receiving the committee appointed to welcome them, three little girls presented the queen with flowers. Her latest received them graciously after Virginia Willis, the oldest had started bravely with a little speech but forgot the last of it. Elizabeth bent and kissed all three of them.

In his response to the address of welcome the king said he appreciated the splendid feeling and in Toledo. Every citizen of Belgium loved Mr. Whitlock as well as any other citizens of Toledo. The king praised earnestly the great dignity and splendid courage with which the American diplomat conducted himself in Belgium during the war and added that when he returned to his capital after absence of four and a half years the American officer in charge of the troops there was a citizen of Toledo. Queen Elizabeth is enchanted with America and the experiences she has had since coming here.

"The atmosphere of America must be wonderful," her majesty said today, "because I couldn't have stood in our own country but I feel none of the symptoms of fatigue."

## RESUME HOSTILITIES IN CHINA

Amoy, China, Oct. 7.—(By the Associated Press.)—Hostilities between the Northern and Southern governments have been resumed, numerous troops leaving the city against the Southern forces stationed at Chan Chow. The usual rice supply to this port has been cut.

## PLANT PARTIALLY BURNED

## BUZUKOS WINS MATCH

Cedar Rapids, Iowa, Oct. 7.—wrestling before the largest crowd that ever attended a wrestling match in this city Peter Buzukos, San Francisco, won from Jack Reynolds of this city here tonight by default.

## Situation In Eastern Zone At a Standstill

PITTSBURGH, Oct. 7.—Conditions in the steel workers strike in the Pittsburgh district were without marked change today. No additional plants were reported to have started up and the strikers did not announce any material additions to their ranks. The works that resumed yesterday in the Donora-Monessen field after an illness of two weeks were reported as having continued operations today.

Union organizers reported that some men are in the various works but there is little, if any, production. All the big plants of the Carnegie Steel company in this district are continuing to operate. The company reports that men are slowly but steadily reporting for their old jobs.

The executive council of the Pittsburgh central union met behind closed doors tonight to discuss the refusal of the authorities to permit the holding of mass meetings. Complaints against the state police and deputy sheriffs were also under discussion it was said. The meeting gave rise to a report that a council might consider the question of a general strike in Pittsburgh.

## 118 ALLEGED I. W. W. CAPTURED IN RAID

Marched in Public Square of Wierton, W. Va., and Forced to Kiss Old Glory.

WIERTON, W. Va., Oct. 7.—One hundred and eighteen alleged members of the Industrial Workers of the World, captured in a raid near here today, were marched into the public square of Wierton, forced to kiss the American flag and were then driven out of town by police and deputies. Seven others suspected of being leaders are being held in the county jail at New Cumberland pending investigation by federal authorities. The raid was carried out without any serious disorder.

Last night the meeting place of the men wanted was located in an old barn south of here. It was raided by heavily armed deputies and several were arrested and a large quantity of "red" literature seized. The deputies also found the names of 187 men, supposed to be members of the organization meeting in the barn. Immediately the hearing of the men and the men were rounded up in the public square. Most of the men were Finns.

## GOVERNMENT WILL PROSECUTE OPERATORS

WASHINGTON, Oct. 7.—In accordance with the government's announced intention of resuming the prosecution of the anti-trust cases pending in the supreme court now that the war has ended, arguments were heard today in appeals brought in suits instituted by the government under the Sherman act against the alleged Anthracite coal trust and the United States steel corporation. The hearing of the coal cases was concluded but owing to additional time being granted both sides for argument, the steel case will not be finished until Friday. The court at the request of Solicitor General King today consented to postpone temporarily the hearing of arguments in government suits against the Eastern Kodak company and the Associated Film Posters and Distributors Union.

These are expected to be heard possibly late this fall. Except for the order of the federal district court calling for the severance of the Central Railroad of New Jersey from Reading interests the government lost both of its cases in the lower court against the Reading holding corporation, the Lehigh Valley Railroad company and the United States Steel corporation and their subsidiaries.

## CIVIL WAR VETS MARCH

Burlington, Iowa, Oct. 7.—Fifty seven years ago this month the Twenty First Iowa Infantry marched down the streets of Burlington eleven hundred and thirty six men strong and embarked on the old Mississippi River Steamer Stephen Decatur, for the war front in the south. Today when the regiment paraded at the opening of its reunion here but forty seven men responded, and but 86 are still living.

Col. D. J. Palmer of Washington, la., former National Commander of the G. A. R., who commanded the regiment on the march to the sea led the parade today.

## SKULL FRACTURED IN BOXING BOUT

Jersey City, Oct. 7.—Receiving a fracture of the skull when knocked down in a boxing bout here tonight Meyer Ellis, of New York City died soon afterward in a hospital. His opponent Wilford Doyle, also of New York City, was arrested on a technical charge of manslaughter.

## DEPOSITS IN ILLINOIS BANKS

Springfield, Ill., Oct. 7.—Deposits in Illinois state banks totaled \$1,287,743,696 on September 12, an increase of \$58,013,326 as compared with June 30, the quarterly report of State Auditor Russell, issued today, said. Total resources were \$1,653,196,899.

## CROWDER GIVEN PERMANENT RANK OF LIEUT. GENERAL

Treaty Sidetracked for Three Hours to Debate Bill

## SHANTUNG QUESTION NEXT

WASHINGTON, Oct. 7.—The peace treaty was sidetracked for three hours today while the senate debated and passed a bill to bestow upon Judge Advocate General Crowder on his retirement from the army, the permanent rank of Lieutenant General. Then at three minutes to five o'clock the senate adjourned until the next day. The debate on the treaty was postponed until the next night will be made. At that point the senate quit work for the night.

Senator Lodge told members that the agreement on the Crowder bill was made by Senator Knox, Republican of Pennsylvania who introduced it, and Senator Hitchcock of Nebraska, in charge of the Democratic forces.

Senator Chamberlain, Democrat of Oregon, in opposing the measure spoke for two hours and there was much other debate before a vote was reached. During the morning hour, there was a sharp wrangle over the league due to charges that the league to enforce peace and other organizations were putting out propaganda in an effort to force the senate to ratify the treaty unamended.

Senator Brandagee, Republican of Connecticut, started the clash by presenting telegrams and letters sent by the league to enforce peace to some of his constituents at New Haven. Senator Poinsett, Republican of Washington, added a word in denunciation of the league propaganda practice attacked Senator Hitchcock who previously had charged that many opponents of the league were bolsheviks and pro-Germans.

Reference by Senator Poinsett to "Senator Hitchcock's war record" drew fire from the latter while the charge by the Nebraska senator that "all the lawless elements" in this country, at home and abroad had organized to defeat the league of nations and that "all the high class intellectual and vital elements" stood firmly for it, brought forth debate.

No definite program had been agreed upon tonight for a vote on the Shantung amendments proposed by the foreign relations committee and which would restore the province to China instead of Japan to which it was "floted by the peace conference. Members of the committee investigating the steel strike may try to obtain unanimous consent for a vote Friday as they are anxious to proceed that night to the Pittsburgh district to pursue the inquiry. With the number of speeches to be made this week leaders said they were unable to decide whether a vote could be taken that early.

## I. T. S. EMPLOYEES ACCEPT COMPROMISE

SPRINGFIELD, Ill., Oct. 7.—It was stated unofficially, but on good authority here tonight that employees of the Illinois Traction System had accepted the compromise wage award of the company. The votes of the three proposed new agreements suggested by the state board of mediators and conciliators it was said, are in the hands of the trainmen's committee except for the men at one terminal.

There are enough favorable ballots it was stated to outweigh an adverse decision by this group. Pending an official report both sides to the wage controversy declined to say what the pay under the new agreement would be.

## MISSIONARIES MEET

Decatur, Ill., Oct. 7.—One thousand delegates representing four states in the northwestern district of the Women's Foreign Missionary society of the Methodist church attended the opening session of the organization here this afternoon.

## THOSE COSTLY PRESENTS

It must be admitted that the published list of gifts made to President and Mrs. Wilson while abroad is quite disappointing in view of the stories that they had been showered with gifts valued at a half a million dollars. The president has the best of the argument with those who have insinuated that his action in receiving costly gifts violated both precedent and law.

## CHICAGO AND HOME RULE

Chicago is to advocate a plan of home rule before the constitutional convention. It is admitted that downtown residents often complain of the influence of Chicago in state politics and the seeming desire of many Chicago politicians to manage the whole state. On the other hand, Chi-

cago is entitled to special legislation difficult of attainment under the present plan of organization. As a big city Chicago can point to precedence in other states when asking for some plan of separate organization.

It is likely that some ideas quite satisfactory to the downstate people and to Chicagoans can be worked out whereby the city can secure special powers and still the state not lose all of the big return that now comes from Chicago taxes.

## OLE HANSON'S PREACHMENT

Ole Hanson, ex-mayor of Seattle, who is now delivering lectures in many American cities, has many things worth while to say. Mr. Hanson recently made the significant statement that when he sought to get some literature likely to teach patriotism and love of law and order, he could find nothing but the Bible and the constitution of the U. S. This condition exists while pamphlets designed to create unrest and dissatisfaction among working people have been distributed by the hundred thousand copies and translated into a dozen different languages. The former mayor's statement shows that the radical element in the industrial situation has followed a definite plan of campaign which can only be offset by intelligent effort.

## IN THE GRAVES OF FRANCE

American soldiers now buried on European soil other than that of France will be removed to the French cemeteries. This significant action but gives new emphasis to the closeness of the relationships between the U. S. and France. A few of the parents of deceased soldiers have been inconsistent that the bodies of all

American dead should be brought to the U. S. but for the most part they have been satisfied that "their" heroes remain in the cemeteries of France where they know from certain testimony that the mounds are given as much of honor and reverence by the people of France as they could be here at home.

## PRODUCTION VS. CURTAILMENT

Mr. Wilson, secretary of labor, declared at the industrial conference that greater production is the most necessary thing before there can be a return to normal conditions. The secretary showed that this is needed first of all to make good the great wastage and losses which came from the war. The statement is not new but it cannot be repeated too often, and coming from the secretary of labor, carries with it the hopeful feeling that there is a growing belief among industrial forces that there must be an increase of production instead of curtailment.

## A UNITED CAMPAIGN

Eight Wisconsin colleges have united in a drive for needed funds. When the campaign is over the money raised will be apportioned in accordance with the program of percentages agreed upon in advance. Such a campaign has much to recommend it, as it means a united effort for common purposes and will occasion a momentum which would be much harder to get in eight separate campaigns. It is quite likely that the Wisconsin people will be pleased with the plan and while ready to give to the support of their educational institutions will be glad to "have it over."

## PLENTY OF JOBS FOR TEACHERS

One county in Minnesota is advertising for fifty teachers and the applications are said to be few in number. Since wages in various lines of labor have shown such increases in the past few years a great number of young men who would normally have entered the ranks of the school teacher have turned to other work. Thousands of young women entered the government employ or took positions with manufacturing concerns at better pay than they could draw as school teachers. So the vacancies have occurred and the demand has been created. The inevitable happening will continue increases in teachers' pay.

## A VERSATILE GOVERNOR

Governor Lowden recently issued a statement calling special attention to the importance of the dairy show which is now open in Chicago. Saturday night the governor made a widely quoted address before the Missouri state bar association. Illinois has a versatile chief executive, for he speaks with authority on subjects of widely varying kinds. For many years he has operated an extensive farm in northern Illinois and his record as a lawyer is of a successful kind. For years he lectured for the law school of Northwestern University. These are only two instances to prove the wide range of the governor's interests and information.

## LABOR AND IMMIGRATION

Immigration is another back-nosed theme but is just now receiving some special attention in congress. The proposal to restrict immigration for at least a year after the formal ending of the war is gaining in favor. Reports indicate the wish of a great number of aliens to come to this country in order to escape the high after the war taxes in their own countries.

Then there is the other fact that thousands of foreigners in the U. S. before the war began, now feel it a matter of duty to return to their native land and to the rescue of relatives. So there has been a great exodus of the foreign born. These facts must not be forgotten in considering the industrial situation in this country. For by comparison with the pre-war period there is today a shortage of many thousands of foreign laborers, and the question of immigration and labor must be considered together.

## CELEBRATING THE RESULT

Very properly a number of Jacksonville citizens went to the site of the new dam and reservoir last night to celebrate the result of the bond election. That was an appropriate place because much of the present "for Jacksonville" spirit is the result of the water supply movement. The people united in a most earnest way in making the water program possible, and it is that same spirit which is in the atmosphere today. The water project is solving one of the problems which has perplexed Jacksonville all thru the years, and it is doing far more in the uniting of public sentiment, in making people willing to work together for the common good. Yes, indeed, the reservoir site is an appropriate place for a bond election celebration.

## A GREAT DAY FOR JACKSONVILLE

The bond issue election in Jacksonville yesterday resulted in a vote of 2825 for the proposition and 190 against. It is not a matter of record that any previous bond proposal in the history of Jacksonville was ever given such decided approval at the polls.

The basic thing in this splendid result is the confidence of the people in the present administration—their belief that the mayor and councilmen are planning earnestly for the future of Jacksonville. Even the most sanguine advocates of the bond proposal had no thought that the majority would be so overwhelmingly strong—practically a 15 to 1 vote.

It certainly should be gratifying to city officials to note that the vote in favor of the proposition was equally heavy in all parts of the city. Sometimes in the past a spirit of rivalry or jealousy has been evidenced in election results. Occasionally one ward has seemed to oppose the wishes of another. In this instance it was almost unanimous, the people of all wards uniting in the effort to put over a proposition which they approved.

There have been instances when the people have elected city officers by goodly majorities and then have failed to give the officials the expected support. Certainly in the present instance the men who were elected some months ago are now being given unqualified support. The men and women of Jacksonville are behind them and if the mayor of Jacksonville and the members of the city council did not already have it in their hearts to do their very best for their home city during their time in office, this record vote would inspire them to such service. City officials with out public confidence and public support can do little. With such confidence and support they can do much.

The people of Jacksonville have evidenced their willingness to go all the way with this administration. They have voted bonds to pay the city's debts, to provide for a filtration plant and for a consolidation of the light and power plants. The election results came about thru the splendid co-operative action and interest of the people. It was a united effort of the war-time kind. The city authorities thru the action of the people have been given the tools to work with. They have the means at hand to accomplish worth while things for Jacksonville, and the people believe that they will measure up fully to the obligations that come with this election result.

The Journal believes with the 2825 people who voted "yes" at this election and with the hundreds of others of like mind but who did not vote, that Tuesday, Oct. 7, was a great day for Jacksonville.

## INDISPENSIBLE

I once was working in a shop, dispensing lemonade and pop, and doodled of the kind; and as I worked I used to think the store would sure be on the blink if I haply I resigned. I thought if I should jump the store the patrons would go there no more, but follow where I went: they'd ask the boss, "Where is the lad whose charms of manner made us glad? Where is that joyous gent?" One day when I was

dreaming thus, the boss came up, the clammy cuss, and said, "Young man, you're fired; too long this useful job you've held; the way your fat young head is swelled would make an image tired." Oh, I was thunderstruck and dazed, and flabbergasted and amazed, but when I got my breath I said, "I do not care three whoops; that store will straightway loop the loops—my going means its death." And every time I passed along I hoped to see things going wrong, no customers on hand; alas, the custom did not stop, but people galloped to that shop, and bought to beat the band. Since that adventure came to pass I feel I do not cut much grass, or ice or wood or hay; and I am humble as I toll; I strive to make the kettle boil without a grandstand play.

## RALLY DAY EXERCISES AT BLUFFS CHURCH

Pupils of M. P. Sunday School Gave Pleading Program Sunday Evening—Mr. and Mrs. Sargent to Leave For West—Other Items.

Bluffs Oct. 6.—Rally day exercises were held at the M. P. church Sunday evening and a pleasing program was rendered by the pupils of the Sunday School, assisted by the choir.

## SOCIAL SERVICE WORK TO BE DEVELOPED

Miss Catlin Will Have Supervision of Work at Three Institutions Here.

Social service workers for the Jacksonville State Hospital, the School for the Blind and the School for the Deaf have been employed by the Department of Public Welfare.

Miss Lucy Catlin of this city as previously mentioned has been appointed chief social service worker and will have the supervision of the field workers of the three institutions. Miss Grace Hasenstab will be field worker for the deaf, Miss Dorothy Dorsey for the blind and Miss Josephine Hayden for the insane.

The social service work will consist of investigations of home conditions of persons in state institutions, supervision of paroles, securing suitable employment and otherwise furthering the interests of the wards of the state.

Miss Hasenstab is a graduate of the Illinois Woman's College and a daughter of a distinguished minister for the deaf. Miss Dorsey was until recently the secretary of the Jacksonville Social Service League. Miss Hayden was formerly a teacher at the school for the deaf. She has recently been employed by the Juvenile Protective Association in Chicago.

Illinois is the first state to establish a social service department for the state institutions. The last General Assembly made liberal appropriations for the employing of these workers for all state institutions. The Department of Public Welfare has appointed workers for the three Jacksonville institutions, the state hospitals at Elgin and Chicago and the Juvenile Psychopathic Institute. Workers for the other institutions are to be employed as rapidly as they can be secured.

The committee at present in general charge of the social service for the entire state consists of Dr. H. Douglas Singer, state alienist; Dr. Herman M. Adler, director of the Juvenile Psychopathic Institute; and Miss Annie Hinrichsen, executive secretary of the Welfare Commission.

## Centenary Queen Esther Circle Met.

The regular monthly meeting of Queen Esther circle of Centenary church was held last evening at the home of Miss Ruth Wilkin-

son on Hardin avenue. The session was in charge of Miss Astelle, the new superintendent, and the leader for the evening was Miss Garneda Phelps. The devotionals were led by Miss Eunice Harley. After the program came a social hour with refreshments. An excellent piano solo was given by Miss Clara Smith and in every way the occasion was a pleasant one for members of the circle. The hostesses were Miss Ruth Patterson and Vivian Sturgeon.

## Party For Miss Buckley

There was a gathering of neighbors and friends Saturday evening at the home of Mr. and Mrs. Thomas Maloney of 761 Hardin avenue in honor of Miss Alice Buckley, who became the bride of William Scheferkott Tuesday morning. Forty-seven were present and the evening was spent with music and games. Prizes were won by Mrs. Rose Steer and Margaret Hazen. Miss Buckley received a handsome set of silverware, a fern and jardiniere. The house was decorated in green and white. Refreshments were served and the guests in departing

wished Miss Buckley many years of wedded happiness.

## East Side Tuesday Club Met With Mrs. Kennedy.

The East Side Tuesday club met yesterday afternoon with Mrs. James H. Kennedy 1127 West Lafayette avenue. The club is studying South America this year and Mrs. L. B. It was the meeting for the annual election of officers and the following were chosen: President—Mrs. Arthur Van Winkle. Vice president—Mrs. Harry Willard. Secretary—Mrs. J. E. Sinclair. Treasurer—Miss Alice Criswell. The next meeting will be held with Mrs. George Brown.

## Deaths

## DeFrates.

Mr. and Mrs. Joseph Estaque received word yesterday of the death of Mrs. Mary DeFrates at the home of her son, Harry DeFrates, 3 1-2 miles south of Palmyra.

Mrs. DeFrates was 69 years old and was the widow of the late Antonio DeFrates. She is survived by one son, Harry DeFrates, an attorney of Palmyra and one daughter, Mrs. Lydia DeSouza of Modesto. She also leaves a sister, Miss Carrie Fernandez of Palmyra.

Funeral services will be held at Palmyra and the body will be taken to Springfield, where services will be held Thursday from Dick Branson's Undertaking Parlor. Burial will be made in a Springfield cemetery.

Miss Joyce Estaque left this morning for Palmyra and will accompany the remains to Springfield. Mrs. Joseph Estaque expects to go to Springfield Thursday to attend the funeral.

## Condon.

Mrs. Fannie Condon died at the family residence, 221 South East street at 1:45 o'clock Tuesday morning.

Deceased was the daughter of David and Frances Oakes Pickett and was born in Arlington, Ky., September 24, 1875. She was united in marriage to Jerry Condon in this city, April 2, 1918.

Besides her husband, she is survived by one daughter, Mrs. Eddie Parton of Marion. She also leaves her parents and two brothers and one sister, Charles and A. J. Patrick, and Mrs. May Alexander, all of this city.

Mrs. Condon was a member of the M. E. church South and was a woman highly regarded by all who knew her.

Funeral services will be held from the family residence this afternoon in charge of Rev. G. W. Randle with burial in Jacksonville cemetery.

## Funerals

## Taylor.

The funeral of the late Spencer Taylor was conducted at the Central Christian church yesterday afternoon at 2:30 o'clock in the presence of a goodly number of sympathetic friends and relatives. Excellent music was furnished by Philip Read, organist, and a quartet consisting of Misses Cora Graham and Fern Haigh and Messrs C. L. Mathis and Wm. Moore who sang in an impressive manner "How Firm a Foundation" and "Sweet Bye and Bye."

Rev. M. L. Pontius read a biography of the deceased and then said in brief:

When I first came to Jacksonville five years ago, one of the first persons I met was Mrs. Taylor, wife of the one who has recently left and who went to her reward a few years ago. She was much interested in church work and all that was good. I did not know the departed brother very well until he was taken sick. He ever bore the reputation of an honest, upright man, industrious and attending to his own affairs. It is especially gratifying to know that during his long illness he was so tenderly cared for, not only by the daughter with whom he lived, but also by his other children who were ever ready to do what they could for him. Of course it is right that children should do this yet it is pleasant to see such filial devotion, for it is the true spirit of Christ and it is a source of comfort to all who knew and esteemed our brother. When God built this body of ours it would seem as if He meant it to live a hundred years, but when we reach three score and ten the shadows begin to lengthen toward the east. Bodily infirmities appear, the faculties are dulled and often the aged long for the time to go and yet when the time comes the friends are not ready to see the loved one go.

When God desired to bring to man a revelation of Himself He did not send a spirit or something unusual but His own Beloved Son in the form of man; one who suffered as we suffer; lived as we lived; was weary, hungry and sad now He is our High Priest, knowing our infirmities, ready to aid and give sympathy and help in time of need. In all the program of life Christ is the One great blessing available to every one. Jesus had a body like ours, yet He was sinless and perfect. These beautiful flowers speak of Christ. His life was not lost on the cross but rather begun and will continue in glory and beauty through all eternity.

At the end of the discourse the beautiful and impressive ritual of the Grand Army of the Republic was carried out by members of the Post and then the remains were borne to Jacksonville cemetery by Messrs. James Westrope, Arthur Long, Frank Ham, Alex Howard, John Deatherage and M. Armstrong. There were many beautiful flowers and designs and these were cared for by Mrs. M. E. Craig, Mrs. Harry Walker, Mrs. Frank Correa and Mrs. J. Snyder.

## A. M. HOOVER IS SCIENTIFIC FARMER

Takes Place Said to be Unprofitable and Brings It to a High State of Fertility—Specializes in Fruit.

An eminent artist was once showing a fine painting to a friend when the latter asked him how he mixed his paints.

"With brains, sir," was the instant reply, and so in many other callings a liberal use of the grey matter of the right kind will be found profitable.

About five miles northeast of Jacksonville is a farm of forty acres, about half good bottom land and half yellow clay knobs. It once belonged to Fred Stevens who had a chicken farm there for a while but left it and moved to St. Louis. Mr. Stevens died and Mrs. Stevens rented the place to a man for \$120 a year and found him a team and he could hardly make ends meet. Five years ago A. M. Hoover took possession of the place with the privilege of buying and his neighbors kindly informed him that he would go to the peach house if he tried to make a living on that farm.

It was indeed hard picking for awhile but Mr. Hoover persevered, set out fine fruit, had some good apple trees that had been set out and now he owns the place.

## Farms Scientifically

A Journal reporter had the pleasure of a visit there recently and found it very interesting. Mr. Hoover has made an intelligent study of gardening and fruit raising and surely has made a success. The apples he prefers are Grimes Golden, Jonathans, York Imperial, Gano and one or two others. He liberally fertilizes the ground about his trees, trims and sprays and the fourth year after planting he looks for apples. When he sets out young trees he plows up the dirt and makes a deeper hole and into it throws top soil. He cultivates a number of times each year, uses manure about the trees and keeps on with that process until the trees are grown. Each winter he piles manure about the young trees and each year, trims and sprays.

For spraying mixture he uses before the trees leave out a mixture of 2½ pounds commercial lime sulphur to 50 gallons of water and sprays with a pump of 135 pound pressure. When the petals fall from the blossoms he sprays with arsenate of lead paste 2½ pounds to 50 gallons of water four times during the summer. When the trees are mature the land may be put in clover or alfalfa but he doesn't fail to add fertilizer about them.

## Apples Profitable

Last year he had a tree which brought him \$54.00 cash and this year he has one that will do almost as well though the apple crop is very light owing to the late spring frost.

He has a patch of late tomatoes, perfect beauties, and called "Livingstone Beauties." If he anticipates frost he will cover them with straw. He has a fine strawberry bed. He will plow between the rows, fill the furrow with manure and cover the vines with straw. He has a fine asparagus bed and a late patch of roasting ear corn in addition to raspberry bushes and other fruit.

He has a fine lot of Rhode Island Red chickens which pay well. He has several wagon loads of superb pie pumpkins; he will feed the inferior ones to his hogs and sell the others. This year he sold \$50 worth of raspberries and canned 80 quarts for home use. He has nine fine, heavy Poland China brood sows which bring him each two litters a year. He generally sells the pigs at six weeks of age. He has three cows and four horses and in addition to the manure made at home he hauls many loads from town.

Much more could be written regarding the place but the well do for the present. It is but just to Mr. Hoover to say that he has only begun and when his trees that he has set out mature he expects easily to double his present income. This year the apple crop was very light and next year something else may be the same.

## Cash Income for Year.

Asked regarding his cash income from the place in addition to what went on his table, he said this year he received from:

Pigs ..... \$ 475

Pelons ..... 512

Raspberries ..... 80

Apples ..... 300

Onions ..... 45

Sundries ..... 600

Pigs (to come) ..... 500

Total ..... \$2512

This doesn't look very much like starting for Stice's free boarding house on the county farm. Mr. Hoover has an interesting family of seven children ranging in age from three to sixteen years and they give more or less assistance on the farm.

Of course he doesn't get all his living from the farm. He doesn't raise much if any wheat and says he buys a fifty pound sack of flour a week and sometimes a little more. He guesses his store bills at \$1000 to \$1300 for groceries, clothing and shoes so it will be seen he gets ahead some each year and, as he says, he has just begun and expects to take in more each year and has land enough.

## WILL BE KNOWN AS JACKSONVILLE POST

Members of Local Unit of American Legion Decide on Name at Meeting Last Night—Delegates Named For Peoria Convention—Membership Committee Elected.

The second meeting of the local post of the American Legion was held at the Court House Tuesday evening with a good attendance of the membership present. It was the decision of the majority present that the local organization be hereafter known as Jacksonville Post.

Temporary President Richard Y. Rowe called the meeting to order and stated the purpose of the meeting. After some discussion and after several names had been suggested for the organization, the vote was taken with the result as above stated. If there is any conflict in securing the charter under the name of Jacksonville Post it was voted to name the local unit the Harrison Dickson Post, in honor of one of

the first Morgan County boys to lose his life in the conflict. It is necessary in submitting a charter to the national organization to give two or three choices of a name for the post for which a charter is requested.

**Delegates Named.**  
The selection of delegates for the state meeting of the Legion at Peoria October 17th and 18th was the next order of business. John Larson and Rev. W. H. Marbach were elected as delegates to represent the Jacksonville Post at this meeting, with Ordain Fox and Dr. A. E. Applebee chosen as alternates. Both delegates and alternates will attend the Peoria sessions but only the delegates will have voting power.

**Membership Committee.**  
Following the matter of delegates for Peoria the question of membership was taken up and discussed informally to some length. The chair stated that he did not feel that he should appoint such a committee, but rather that such a body should be elected by the members from the floor. However it was stated that each member should have the welfare of the organization sufficiently at heart to work to secure additional members and that in this way the best results for a thriving organization could be maintained. The following members were elected to constitute a permanent membership committee:

Chairman—Hugh P. Green.  
First Ward—T. Allen Kelly, Joseph D. Decker, and Joseph P. Hosp.  
Second Ward—Carl E. Newport, William A. Fay, and Macy W. Osborne.  
Third Ward—Frank O. Branstetter, Glen E. Skinner, and Albert R. Myrick.  
Fourth Ward—Dr. Garm Norbury, James Barnes, Chester Hemphill, and Allen Jacobs.  
Jacksonville R. F. D. No. 1—N. J. Carpenter.  
Outside Jacksonville—Merwin D. Ator and Clyde D. Black.  
The meeting adjourned to meet at the Court House Tuesday, Oct. 8.

## THE OBSERVATORY

We are told the bond issue was favored by 2,825 and that 190 voted against the proposition. That's about as near unanimous as it is possible to get anything in Jacksonville. And its probable today that these 190 would all be ready to say "Amen" and make it really unanimous. Some vote.

The city fire whistle started blowing at four o'clock yesterday afternoon just at the time of that wonderful White Sox rally which staved off a possible world's series defeat for Chicago. No, the whistle wasn't being operated by a White Sox fan, he was merely reminding voters of the bond issue election.

We learn from recent advertisements that winning a baseball series is mainly a matter of nerves, and the matter of nerves has been scientifically brought down to a matter of chewing gum. It follows naturally that the reason the Reds won the first two games so handily was that they chewed more gum before the games, and the White Sox vice versa, as Mr. Lardner would say. Unfortunately for the speculating fans, no system of reporting the chewing gum statistics before the game was perfected this year, and it has been practically impossible to learn which side began first in the morning to chew the most gum in time to make bets on the game. This matter probably will be attended to next year and then nobody will have any excuse for betting on the wrong team.

"Oon goog—hie!—tut-tut-tut—" began the measly mendicant, who appeared to have several impediments in his speech. "Look here!" snarled J. Fuller Gloom. "If you can't talk sense, argue for the league of nations."

Speaking of the world's series, as several do, the Lawrence-Journal-World recalls that, it was just about this time last year that Wilhelm was batted out of the box.

"The cost of living is coming down and—"  
"So was the water coming down at Lodore," in McGuffey's Third Reader of forty or fifty years ago, rapidly and with a rush and a roar," interrupted the Old Timer. "And if you will examine a late edition of that fine old book you will find that while the water is still in the act of coming down at Lodore it hasn't got down yet."

A Jacksonville telephone operator gave an inquisitive subscriber a rather neat rejoinder Tuesday morning. Despite the fact that it had been announced in the press that the fire whistle would be blown during the day to remind the citizens that it was time to vote on the bond issue, the telephone girls were kept busy answering the query "Where's the fire?" One of the girl's patience gave way when she had explained for the nine hundredth time that there was no fire.

Just then another call came: "Where's the fire?"  
"Where you'll be if you don't vote for the bond issue!" replied the fair operator.

"It rains on the just and the unjust all right enough," says the Village Deacon, "but how does it come that so many of the unjust fellows always have an umbrella and a raincoat, while we just fellows are at the mercy of the elements?"

## SCOTT COUNTY MAN WEDS IN MASON CITY

Wilson Coultas and Miss Mayme Smith United in Marriage Tuesday Evening—Community High School Proposition Favored by Many—Other News Notes.

Winchester, Oct. 7.—The wedding of Wilson Coultas, eldest son of Mr. and Mrs. Grant Coultas living near Winchester, and Miss Mayme Smith of Mason City, was solemnized at the home of the bride's parents Tuesday evening. The bride is well and favorably known in this community, as she has for a number of months held a position in Winchester. While here she made many friends, all of whom unite in the best wishes at this time.

Mr. Coultas is a young man of sterling worth. He is a graduate of the high school and was a student at the state university when war was declared. He enlisted soon after that time and served for a long period on the battle fronts of France. He belongs to one of the most prominent families of Scott county. Mr. and Mrs. Coultas will be at home on a farm north of Winchester following their return from a brief wedding trip.

Mr. and Mrs. Grant Coultas and daughter, Miss Frances, went to Mason City Tuesday to attend the wedding of Wilson Coultas and Miss Mayme Smith.

Mr. and Mrs. Walter Hart and daughter Harriet spent Tuesday in St. Louis.

Mr. and Mrs. Elmer Davis and two children left Tuesday for Albuquerque, N. Mex.

Chris Munze and Guy Faul were visitors in St. Louis Tuesday.

Mrs. Thomas Richardson returned Tuesday from a visit with relatives in White Hall and Roodhouse.

Dr. C. L. Lord, one of the instructors at the institute, will give a lecture Wednesday evening at the Christian church to which the public is cordially invited. Dr. Lord's theme will be "Desultory Reading."

A petition is ready to be filed with 100 signatures for a community high school. This movement is having the support of some of the leading citizens of Winchester and they are hoping that the proposition will receive strong support at the election which will be held Oct. 25.

## MISS BUCKLEY WEDS WILLIAM SCHEFERKORT

Marriage Solemnized Tuesday Morning—Will Reside Near Alexander.

Miss Alice Buckley of this city and William Scheferkort of Alexander were united in marriage at the Church of Our Savior Tuesday morning at 6:30 o'clock. The ceremony was said by the Rev.

Father Cahill and was witnessed by a large company of relatives and friends.

The couple were attended by Miss Theresa Scheferkort a sister of the groom and John Buckley, a brother of the bride. The bride and her attendant were attired in suits of blue serge with hats to match and carried Ward roses. Following the ceremony the bride and party went to the home of the bride's parents Mr. and Mrs. James Buckley, 752 Hardin avenue where a wedding breakfast was served.

In the cutting of the bride's cake Mrs. Charles Grady received the ring. Mrs. Hester Doyle the dime, Mrs. John Doyle the needle, Miss Edith Porwode the button.

The Buckley home was tastefully decorated in green and white. The couple were the recipients of many handsome and useful presents.

The bride is the daughter of Mr. and Mrs. James Buckley and was born and reared in this city. She is a young woman of much personal charm and is highly regarded in a wide circle of friends. The groom is a farmer by occupation and resides in the vicinity of Alexander. He is a young man whose honesty and integrity has given him high standing in his home community.

Mr. and Mrs. Scheferkort left Tuesday evening for Chicago and eastern points for a brief wedding trip. They will be at home about November 1st on a farm five miles south of Alexander.

## PEOPLE JOIN IN BIG CITY MOVEMENT

VOTE IN FAVOR OF BONDS NEARLY UNANIMOUS.

Every One of Sixteen Precincts Shows Strong Majority Total Vote 2,825 to 190—Result Possible Through United Interest of the People.

The people of Jacksonville cast a record vote yesterday—that is for a special election. In the 16 voting precincts 2,825 votes were cast in favor of the proposed bond issue and 190 votes against it. In some special elections in the past not more than half as large a vote has been cast and then with a close result.

In yesterday's election every precinct in every ward gave a very decisively favorable vote. There were at least two precincts as indicated in the accompanying table, where not a single woman's vote was recorded against the proposal, and in other precincts the men made nearly as enviable a record.

### Informal Organization.

There had been some organization work done in advance by the friends of the proposition, but this was largely of an informal kind. In addition to the confidence in the present administration, one of the greatest factors in the favorable action by the people was the method used in presenting the proposal. Weeks ago the council, acting on petition filed by citizens, inaugurated the bond issue movement. A committee of citizens was appointed to co-operate with the council. A so-called financial primer was issued, setting forth the facts in a succinct and readable form. At every step there was careful publicity and evidence of the desire to have the people know the facts and to work with them toward the common end.

The day was perfect from a weather standpoint. The din of whistles and bells at stated hours through the day helped center the attention of the people on election proposals and many influences were at work in support of the bond movement.

### Arguments Very Clear.

The arguments in favor of the bonds were so clear and sensible that there were few opponents and there was no distinct movement in opposition. The great majority of people are honest and believe in the payment of municipal debts just as they do in the payment of private obligations. Just about 100 per cent of the people want a filtration plant to make pure water a reality. And then all of those who have investigated the proposition believe that the combining of the light and pumping plants will be a matter of certain economy.

So there were good sensible reasons for favoring this bond issue and evidence of this statement can be found in reading the record of the vote cast in the 16 precincts as shown by the accompanying table.

## BANK ROBBERS ENTER CONCORD BANK

Secure Bonds and Valuables to Extent of Several Hundred Dollars—Engage in Revolver Duel With Residents.

Robbers, blew the vault of the Farmer's and Merchant's Bank in Concord early Tuesday morning and escaped with several hundred dollars worth of bonds and other securities. These were the property of patrons who had private safe deposit boxes in the bank. The robbers did not gain entrance to the bank's strong box.

The robbers were discovered by B. A. Cratz, proprietor of a general store in Concord and another resident of the name of Webster. These men opened fire on the bandits, who were making their getaway in an automobile Cratz using a shotgun and Webster a revolver. The robbers replied and a number of shots exchanged. It is not known whether any of the robbers were hit by the shots.

As soon as the robbery was known Sheriff Weatherford was notified and went to Concord with his deputies Roach and Wright. They made a thoro investigation, but no clue was obtained as to the identity of the robbers. It is believed, however, they are the same men who attempted to blow the vault of the Murrayville bank last Saturday morning.

The robbers left Concord in a large automobile traveling westward and were reported to have passed thru Bluffs at a high rate of speed. Mr. Webster and Mr. Cratz are of the opinion that there were from four to six in the gang. They were armed apparently with automatic revolvers.

Walter McCarty and H. Englebach, officers of the bank, were on the scene soon after the robbery. Many other residents awakened by the explosion and the sound of the shots, gathered at the bank.

Investigation showed that the main vault had not been entered by the robbers. The only loot was secured from the private safe deposit boxes of the bank's customers. The officials were of the opinion that this will total several hundred dollars.

Ora Hamm, a resident of Concord, is known to have lost \$105 in money and a diamond ring. The thieves broke open the boxes with a sledge hammer which they secured from a blacksmith shop located near the bank.

Sheriff Weatherford and his deputies gave especial attention to the tread of the tires on the robbers' automobile. Word was sent to authorities within a radius of 100 miles and it is hoped that the robbers may be apprehended.

## WHITE SOX IN GREAT COMEBACK DOWN REDS

Overcome Four Run Lead and Win Game in  
Tenth Inning by Score of 5 to 4.

CINCINNATI, O., Oct. 7.—The person who was directed yesterday to shin up the pole at Redland Park and measure it for the world's championship bunting slid down the shaft a bit today and the measuring was postponed. The reason was that as the Chicago White Sox did not dare lose today's game for with it would have gone the championship they overcame a lead of four runs and by delivering one more tally in the tenth round won the game, 5 to 4 from Cincinnati. It was a contest replete with thrills and heartbreaks, varied by some weird fielding, snappy base running, mighty clouts, mad catches and, in short, practically everything relating to baseball.

**Rally in Sixth.**  
Cincinnati looked like a certain winner in the third and fourth rounds in the course of which four Redlegs crossed the plate. In the fifth however, the Sox turned two passes and a single into a tally and in the sixth two doubles and two singles were the major factors in the three runs which tied the score. To Buck Weaver, sterling third baseman,

who wielded a mighty stick in the game, fell the distinction of recording the winning run in the tenth. He was the first man up and doubled to center, his second and two sacker of the game. The partisan crowd became hushed and then began to chant encouragement to Ring, who had displaced Ruether as pitcher for the Reds. Jackson tried a bunt and missed but on a second attempt the ball dribbled a few feet down the third base line and while the ball was perfectly fielded, Jackson crossed the initial sack with time to spare, Weaver landing on third. "Happy" Felsch who had delivered a double in the sixth, struck out, but Gandil, who had previously delivered nothing singled and Weaver scored. In their half of the tenth the Reds went out in order and the day closed with the series standing four victories for Cincinnati, and two for Chicago.

The Cincinnatians entered the field confident they had so drubbed the visitors that the last ounce of fight had departed from them. The latter however, had been hauled over the coals in unmistakable fashion by Manager Gleason during the forenoon and they came on the field looking desperate, rather than hopeful.

"Dutch" Ruether who became a local idol by his great pitching and perfect batting in the first game of series in which Chicago was humiliated 9 to 1, was trotted out to deliver the coup de grace to the American leaguers. The crowd gave him a rousing welcome but also he held his adversaries hitless during the first three innings, experts noted that the Sox were slugging them savagely into the outfield, or slinging them down the foul lines in a way that was not present in the first game. There were none out in the sixth when Manager Moran

more in sorrow than in anger, beckoned him to the bench and Jim Ring, a right hander, who pitched the Reds to a 2 to 0 victory at Chicago, was called on to save the day. He was wild but effective until the tenth aided by some sparkling fielding.

Dick Kerr, who pitched Chicago's only previous victory a 3 to 0 shutout at Chicago was again called upon by Manager Gleason, and altho eleven hits were registered against him he was steady in the pinches and kept them well scattered, save for his two bad innings.

Ray Schalk, who was banished yesterday was back in the catcher's box, and J. Collins started in the game in right field for the Sox, but was displaced in the seventh by Liebold, as Ring, a righthander, was pitching. The stands were packed when J. Collins, the first of the Sox batsmen, faced Ruether. He popped a high one which Rath captured way back of second base surrounded by Neale, Daubert and Kopf, who had journeyed from their respective stations as it might have belonged to any of them. Eddie Collins hit viciously for an out at center. Weaver's grass cutter went thru Kopf, but Jackson made the third out with another pop up.

In the Reds' half, Groh doubled after outs by Rath and Daubert. Risberg at shortstop juggled Rousch's grounder until the runner was safe, but Groh over ran third and Risberg threw to eaver for an out.

**Reds First to Score.**  
The feature of the second inning, otherwise unadorned, was the force out of Duncan at third. Duncan got a life on Risberg's tumble of his grounder. Kerr became unsteady and walked Kopf. Neale grounded to Kerr, who ignored the batsman and snapped a high one to Weaver, who, however, trapped it in his unloved hand and caught Duncan. Rariden then tapped one to Eddie Collins whose throw to Risberg killed Neale at second, but Kopf reached third. The mighty Ruether, whose great batting in the first game was remembered with cheers by the crowd responded with an easy out, Kerr to Gandil. In this inning Schalk walked and was sacrificed to second, but got no further.

In the third the scoring began. Rath was retired. E. Collins to Gandil, and Daubert singled to right. He stole second. Groh fanned and Rousch was hit by a pitched ball. There were now two on bases and the crowd began calling for a run. Duncan responded with a terrific hit between J. Collins and Felsch which scored Daubert and Rousch, amid tumult in the stands. Kerr looked worried, but the strain on him was relieved by Kopf who sent an easy one to Felsch in center.

One isolated and useless single marked the Sox half of the fourth. In their half the Reds accumulated two more runs. Neale sent one to right which took an eccentric bound and J. Collins cut across the field after it and it rolled for a triple. Rariden was an out. E. Collins to Gandil, Neale being held easily at third. Ruether then measured up to the crowd's expectation by doubling, sending Neale across the plate. Rath hit to Risberg who attempted to catch Ruether going to third but the pellet caught the runner in the back and rolled to the stands while the pitcher scored and Rath made second. Weaver was unable to persuade the umpire that Ruether deliberately interposed his shoulder to deflect the ball. A moment later, Rath taking advantage of the momentary demoralization of the Sox, stole third. Joe Jackson ended the trouble for his teammates by a brilliant running catch of Daubert's short fly and a throw to Schalk which killed Rath who was attempting to score on the out.

**Chicago's Score in Fifth.**  
Chicago's first evidence of a return to form came in the fifth. Ruether was unsteady and walked

out a hit to short, filling the bases. J. Collins lined to Rousch, but the ball was caught so close in that Risberg made no attempt to score. Eddie Collins came to the rescue with a long fly to Rousch on which the Sox scored. At this point a serio-comic by the base-running was produced. Rousch threw to third ahead of Schalk, who however, managed to scurry back to second. Kerr, meanwhile, had trotted down to second and seemed not to comprehend what was happening when Schalk came tearing back. He stood still while Groh shouting madly to some one to take his throw finally ran up to the unprotesting Kerr and tagged him for the third out.

In the fifth half of the fifth with two down, Duncan reached third when Felsch dropped his long drive but he died there, as Kopf was interred, Risberg to Gandil.

### Ring Relieves Ruether.

In the sixth the Sox did their first clean consecutive hitting of the series. Weaver poled a short double just where there was no one to reach it, and flashed across the plate a moment later on Jackson's single. Felsch, who already had a single to his credit, doubled, scoring Jackson. Manager Moran, who had been standing unobtrusively on the sidelines, at this moment relieved Ruether. Ring was sent in. Gandil popped to Daubert and Risberg grounded out. Kopf to Daubert, but Felsch reached third. Schalk then singled past Groh and sent Felsch home with the tying run. Schalk stole second but Kerr was thrown out at first. Ring issued two passes in the eighth but was saved by a sparkling double play. Risberg lined to center, but Rousch came in on the dead run and caught the ball off his shoe strings and doubled Jackson before he could return to second base.

In their share of this inning, the Reds got a man to third after two were out. Neale got his third hit of the game, a single to left. Rariden grounded to Kerr who became confused in throwing the ball and Neale went to third while the Red catcher was safe at first. Ring forced Rariden a moment later, ending the round.

In the tenth Weaver doubled and Jackson singled, sending Weaver to third, and the handful of Chicago rooters put up a shout. Gandil responded with a single to center which sent Weaver home with what proved to be the winning run. Jackson took second on the play. Risberg lined to Kopf and Jackson was doubled off second.

The last effort of the Redlegs was brief and ineffectual. Rousch went out. Collins to

### HAD TO MUFFLE THE TELEPHONE

Mrs. Swanson's Nerves Were Upset from Years of Trouble—Gains 20 Pounds.

"For the benefit of the thousands who are suffering from stomach trouble and a run down condition I want to tell of the wonderful results I have gotten from the use of Tanlac," said Mrs. Lena Swanson of 1720 North Madison street, Peoria, Illinois, in relating her remarkable experience with the medicine, a few days ago.

"My friends are simply amazed," she continued. "They all say I am now the picture of health. Why, just today one of my friends told me I was looking ten years younger, and I certainly do feel that way, too. I have already gained twenty pounds in weight and have just finished my fifth bottle of Tanlac."

"It was eight years ago, or more, that my stomach got out of order and my health began to fail. I finally got to feeling so badly that I lost interest in everything, gave up my church work, and found little pleasure in life. My food tasted like poison to my system. I would blast up with gas, until I did not look natural and just suffer agony. My heart would flutter, from the effects of this gas, and weaken me until I would almost faint. I would get so dizzy at times that the house seemed to be whirling 'round. No one knows, unless they have suffered the same way, how miserable I did feel. I at last got to where I had to almost stop eating and became so run down and weak it was all I could do to get about the house. My nerves were so shattered that the least noise would upset me. I finally had to muffle the telephone as I would almost jump out of my chair when it rang. I slept but little at night and seldom woke up in the mornings without a dull, nagging headache."

"My friends would call and sympathize with me, but now they rejoice with me and go 'way praising Tanlac. One day my brother, who had used Tanlac with fine results, brought me a bottle and talked me into trying it. Well, when I finished that bottle my appetite had returned, and I could eat better and sleep better than in years. I didn't feel quite so nervous, either, and then I knew I had found the medicine I needed. I had been suffering so long and was in such a badly run down condition that it took several bottles of Tanlac to straighten me out, but anyone can look at me now and see that I am enjoying good health. I can now eat meats, pickles, cabbage, in fact just anything and never have the least trouble with my stomach. My nerves are as calm and I sleep as soundly as when I was a child. I am just so grateful and happy for the return of my health that I want to tell everybody about Tanlac. I never grow tired praising it to my friends."

Tanlac is sold in Jacksonville by Coover & Shreve, in Meredosa by Mr. R. B. Field, in Murrayville by M. E. Gilbert, in Waverly by the Wylie Drug Co., in Woodstock by the Hoy Pharmacy and in Chapin by Jno Onken & Bro.

### Cicotte-Sallee Today

Cincinnati, O., Oct. 7.—Pitching selections for the seventh game of the world's series scheduled for Redland field tomorrow were shrouded in uncertainty tonight but it was generally believed that Manager Gleason of the Sox would send Eddie Cicotte, altho beaten twice, against the Reds in a determined effort to again turn the tide of defeat.

"Slim" Sallee, who defeated the Sox 4 to 2 in the second game of the series probably will be Manager Moran's pitching choice altho he may decide to give Luque, the Cuban twirler, a chance to face the Chicagoans. Sallee was batted hard in the second game, the Sox getting ten hits but only succeeded in scoring two runs.

"Today's game was a heart-breaker for the Reds to lose," said Manager Moran tonight. "We should have won it half a dozen times. But the strain of the world's series is beginning to tell on my players and they were a bit unnerved. But they will regain themselves tomorrow and wind it up."

Kerr pitched better ball than either Ruether or Ring. He demonstrated his gameness when he pitched himself out of a couple of tight places and got some erratic support. It is possible that I shall start Sallee against the Sox tomorrow."

"The Sox have hit their winning stride and altho tremendous odds are against us we are far from out of the race," said Manager Gleason. "The players have begun to hit and it will be a different story from now on. They slammed everything Ruether and Ring had today and will do the same thing to Sallee if he pitches tomorrow."

"Despite the fact that the breaks went against us, we played a better brand of ball than the Reds. We should have cinched the game in the eighth only for Rousch's lucky catch of Risberg's liner. It would have gone for a double sure and we should have scored two runs. I am proud of

Kerr's pitching. He possessed extraordinary pitching skill and remarkable gameness.

"I have every confidence that Cicotte can beat Cincinnati and may start him tomorrow if I think he is right."

Cincinnati had preparations made for a huge celebration tonight. The bands and red fire will be brought out tomorrow if in the chorus.

the Reds are victorious. A novel serenade was given by the band just before the start of the contest. After each verse or chorus of a popular song the bandmen would shout the name of a Cincinnati player and then render more music in his honor. Thousands of the bleacherites joined in the chorus.

## SEED LAW MAKES MANY RESTRICTIONS

Strict Provisions Made by New Illinois Statute for Sale of Farm Seeds—Impure Offerings Must be so Labeled.

The people of this vicinity who have anything to do with the buying and selling of the following farm seeds: Red Clover, White Clover, Alsike Clover, Mammoth Clover, Sweet Clover, Alfalfa,

Timothy, Kentucky Blue Grass, Bromo Grass, Orchard Grass, Meadow Fescue, Oat Grass, Rye Grass, Vetch, Rape, Corn and Millets, will be interested in knowing the provisions of the Illinois Seed Law, which became effective July 1st, 1919.

The law does not prevent the sale of impure seed but provides for the proper labeling or tagging of the seed sold or offered for sale.

When any of the farm seed referred to above is sold or offered for sale for seedling purposes within the state, the label or tag should show the following information:

- (1). Common name.
- (2). Noxious weed seeds present in greater numbers than 1 to 5,000.
- (3). No one or more of which is in greater number in the aggregate than 1 to 1,000 of such farm seed.
- (4). No one or more of which is in greater number in the aggregate than 1 to 500 of such farm seed.
- (5). Per cent of other weed seeds present.
- (6). Per cent of inert matter.
- (7). The name and address of vendor, also name and address of purchaser.

**Some Exceptions**  
Agricultural seeds or mixtures when sold to dealers for reselling or held in store for cleaning purposes do not come within the law.

The information for the above mentioned label or tag can be obtained by an analysis of the seed. This analysis can be made by the dealer himself or by a seed analyst in the employ of the United States Department of Agriculture, or a wholesale seed house. The seed law provides for the analysis of seed by the Department of Agriculture, through a Chief Seed Analyst, who has an office and a laboratory in Room 428, DeWitt Smith Building, Springfield, Illinois. Samples of not less than 2 ounces should be taken so as to

represent the entire lot or seed as nearly as possible.

When sample is taken, place it in a strong manilla paper bag or cotton sack and wrap securely to prevent being torn open in mails. A small cotton sack is better than most envelopes.

The law provides that five samples of farm seeds sent by one individual, firm, or corporation within a year, will be analyzed free.

The law also states that it shall be unlawful for any person, firm, corporation or association, to sell or have in his or its possession, for sale, any farm seed, whether named in the law or not, which has been artificially loaded or weighted with sand or dirt or other similar material, to add to the weight or quality of such farm seed.

**Seed Corn Regulations**  
Seed corn sold or offered for sale in lots exceeding 10 pounds requires, according to law, a different label or tag showing:

- (1). The full name and address of the vendor so selling or offering same for sale.
- (2). The common accepted name of the variety.
- (3). The name of the county and the state where grown; also the year in which said seed corn was grown.

If the above facts are not known it should be so stated on the label or tag.

The penalty for a violation of the law is a fine of not less than \$5.00 nor more than \$100.00. A short course in seed analysis will be given by the Illinois Agricultural College at the same time as their regular short courses which are usually held the latter part of January each year. Full information regarding this course can be obtained by writing to Department of Agriculture University of Illinois, Urbana, Illinois.

Copies of the law and the Rules and Regulations printed in bulletin form can be obtained by writing to Department of Agriculture, Seed Inspection, Room 428, DeWitt Smith Building, Springfield, Illinois.

### A NEW DEPARTMENT

In our daily wandering looking for news in going into the store of the C. C. Phelps Dry Goods Company we were invited to go up stairs on the balcony and were certainly surprised in finding that they had opened a new department with fine new mahogany fixtures both for the Art and Pattern departments, with new linoleum floor covering. All of the latest styles, all that is new in the way of art merchandise can be found in this section and much new material is on the way and will be found displayed in an artistic manner by Miss Maud Franz, who is an expert in this line of merchandise, having had a number of years experience. Miss Franz is in charge of this department and will be pleased to have all her friends call and be shown the great variety of handsome and popular priced merchandise usually found in an exclusive department of this kind. If she hasn't what you want she will make an effort to get it for you. Your time in looking through this new section will be well spent as this is the time to begin your Holiday shopping.

All that is new and attractive can be found here. This popular store has been redecorated in white on the main floor and shows up clean and airy and it will be found a pleasant and profitable place to trade.

### GETS 28 EGGS A DAY NOW, FROM 34 HENS

Chas. C. White, Well-Known Breeder, Tells How. Costs Nothing to Try.

"I gave Don Sung to 34 utility Buff Orpingtons and the egg yield increased from 7 to 28 a day. Don Sung is a wonder and I am now giving it to all my hens regularly."—Chas. C. White, Manager Cherry Hill Farm, Plackville, Ind.

Mr. White is the well known breeder and exhibitor. He wrote the above letter in December, after his test had shown a gain of 21 eggs a day from 34 hens. We will make you the same offer we made him. Here it is:

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be promptly refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer or send 50 cents for a package by mail prepaid. Burrell-Dugger Co., 284 Columbia Bldg., Indianapolis, Ind.

Talk about adventures!

Men in the Navy come home with the kind of experiences that most chaps read of only in the books.

Here's your chance!

Uncle Sam has, as you know, a big Navy and gives un-blooded young fellows like you an opportunity to step aboard and "shove off".

What will you get out of it? Just this:

A chance to rub elbows with foreign folks in strange parts of the world.

The chance for good honest work on shipboard—the kind of work that teaches you something real: the kind of work that puts

beef on your shoulders and on your chest.

You will get 30 care-free vacation days a year, not counting shore leave in foreign or foreign ports.

You will get the kind of command that is the heart of a sailor's life.

You will get the kind of pay that is the heart of a sailor's life.

You will get the kind of work that is the heart of a sailor's life.

There's a recruiting station right near you. If you can't know where it is, your Postmaster will be glad to tell you.

## Big Lot of HAY FEVER JOKES

But Kentucky Man Says—"People Who Belong to Hay Fever Solony are Kidding Themselves."

Wouldn't Be Any Rose or Hay Fever if Simple Home Remedy was Given a Chance.

"Yes, there's a real NINETY-NINE per cent effective remedy for hay or rose fever," frankly states a druggist in a prosperous Kentucky city.

"But I don't expect anyone to believe me, because the treatment is so easy and the cost not worth mentioning."

"The annual crop of hay-fever jokes would be mighty scarce if people would get an ounce of Mentholized Arcine and by just adding water that has been boiled make a pint of liquid that will prove a real help to all who suffer."

"Many of my hay-fever friends tell me that by starting to gargle and sniff or spray the nostrils a few times a day the expected severe attack often fails to appear and in cases where it does show up is very mild and does not annoy."

"The Better Class of Pharmacists" who dispense Mentholized Arcine say it will greatly modify any attack even when taken three or four days after hostilities begin.

Go to a real live druggist when you get ready to make a pint.

## The Sun-Ray Lens

A Better Lens—at a Lower Price.

Here is the new Sun-Ray Lens—one that gives you all the advantages of other lenses, and more.

Yet it sells profitably at \$1.75 per pair.

Sun-Ray Lens gives all the advantages of diffusion, plus all the advantages of deflection.

It meets the complicated legal requirements of every state in the Union.

Thick triangular prisms on the inside of the lens give wide side diffusion and reduces glare without interfering with the effectiveness of the driving light. Horizontal prisms, also on the inside, bend the light rays down on the road, preventing waste light up in the air, and complying with all 42 laws.

The outside surface is smooth, preventing dust, mud and snow from caking on the glass and dimming the lights.

The Sun-Ray Lens at the \$1.75 price offers a tremendous opportunity to dealers everywhere. In Sun-Ray Lens you are able to offer your trade a scientifically designed and constructed lens—a lens with real talking points and exclusive features—and for \$1.75 a set, any price. A price within the reach of every motorist.

The lens field is large—and constantly growing.

Buy your Sun-Ray Lenses to-day.

# \$1.75

## AGED GREENE COUNTY RESIDENT IS DEAD

Mrs. Matilda Trippen Passed  
Away—White Hall News Notes

White Hall, Oct. 6.—Mrs. Matilda Evaline Trippen widow of the late Peter Trippen, Sr., died at 2:30 p. m., Thursday, Oct. 2nd, at her home in Walkerville township, six miles west of White Hall. She had been in poor health for four years or more, and for the past six months had been under the constant care of a physician. A stroke of paralysis a few hours before her death hastened the end.

Deceased spent her entire life in the neighborhood where she died. Her death occurred October 10, 1845, and she was, therefore, nearly 74 years of age. Her maiden name was Wood, and she and Peter Trippen were married shortly after the close of the Civil War, he dying about twenty-two years ago. Their children are William J., of East St. Louis, Peter J., of Bluffdale and Marcus at home. A sister, Mrs. Henry Berline, resides at Caldwell, Kansas. There are two brothers, Isaac Wood of White Hall and George Wood of Greenfield. She was a member of the M. E. church since girlhood.

Funeral services were held at the home at 2:30 Saturday, conducted by the Rev. A. J. Johnson and the Duncan sisters. The burial was in the Wood cemetery, near by.

**White Hall Notes.**  
The ladies of the First Baptist church netted about sixty dollars at their chicken dinner on the 2nd.

cation of the new community high school district, as follows: J. H. Fox, W. L. Winn, Marcus North, Norman Davis, Louis Lowenstein. The election will be held on Saturday, Oct. 15th.

Mrs. F. V. Pearce arrived from St. Louis Saturday, where she had been in a hospital for several weeks. She will proceed home to Galesburg this week.

Mr. and Mrs. W. F. Dillman, Miss Alice Potts and William Dillman, Jr., departed Monday for Oakland, Calif., to spend the winter. The latter will serve as chauffeur, and they will purchase an auto for a tour of Yellowstone and Yosemite.

Marcus North has purchased the Clyde Boehm residence on West Franklin street, and will move to town from Apple Creek Prairie. It is stated that Mr. Boehm may locate elsewhere. White Hall is not behind in the general shortage of houses. About a dozen families were listed today as wanting houses, and some of them talk of using tents until better housing is afforded.

Mayor McLaren is setting a good example in the enforcement of penalties for law violations. He has set a 100 per cent mark in the collection of fines, and so far he is holding the mark and adding the expense of board in the case of any who have to be held in the city jail for any length of time.

Roy Barrett, recently discharged from the navy, is spending a few days here before proceeding home to Arlington, Kansas, where he says he will resume the printing game in the office of his father, the Arlington Enterprise, in which is conducted a large general printing business.

Mrs. Lee Erb and baby arrived from Julesburg, Colo., Sunday. She was formerly Miss Edna Vosseller.

An effort will be made this week to complete the apple harvest, and with continued favorable weather this will probably be accomplished. Corn cutting is practically completed, and shucking is scheduled for about a month hence. The fourth crop of alfalfa will be ready for cutting next week, but little will be cut for the present. There is a slightly increased acreage of rye, and the crop is now sown. Winter wheat plowing is finished, and sowing is well under way. The acreage is considerably reduced from last year. The past week has been favorable for the continued progress of all kinds of farm work, and the condition of the roads is excellent.

Business on the White Hall Railway (electric) has become so brisk that the steam locomotive has been put back in road service, after having been out of service during the summer.

Get up your list of magazines and periodicals for personal use and as Christmas gifts, and send them to R. B. Pearce, White Hall. He is sending in orders each week, and can save you money in most cases.

Joel C. Bradshaw started on his return to Stratton, Colo., Monday. Mr. and Mrs. Asa Muir of Salina, Kansas, were Friday guests of Mr. and Mrs. T. J. Grant. They had been at St. Louis to attend the wedding of their son, Mrs. Muir is a sister of Mr. Grant and is known to several here.

Miss Olive Strang will leave Thursday on her return to Cleveland, Ohio, and will be accompanied by her mother, Mrs. W. S. Strang, who will spend a month at Cleveland.

The committees of the Community Council are furthering the public health service and receiving the support of a more extensive element of the population as the work becomes known. The awakening came with the visit last week of Miss M. E. Wilson of the child hygiene department of the public health service, who was accompanied by Mrs. H. T. Rainey, both of whom made talks at a conference held in the Christian church that was well attended. Mrs. Arthur Robey of Eldred, chairman of the Eldred Community Council, also took part in the proceedings that promise to mark a new epoch in public health activities. Louis Lowenstein is chairman of the White Hall Community Council, and the committees are the following: Ways and means, Mrs. Nellie Short, Miss Laura Baker, Mrs. Mabel Lowenstein, Dr. F. N. McLaren, R. G. Smith, Louis Lowenstein, nursing, Mrs. Clara Black, Mrs. A. W. Foreman, Mrs. W. P. Lowenstein. The employment of a community nurse is being worked out very hopefully.

**Skilled  
Mechanics  
Need Precise  
Vision**

The Structural Iron Worker for example, would be taking his life in his hands to attempt the feats he is called upon to perform every day were his vision at fault. No matter how good, in time the eyesight begins to fail — and when that day comes, the mechanic's usefulness begins to narrow down — unless he seeks the aid of science.

Cheaply selected, ill-fitting glasses are highly detrimental to the eyes—and to mechanics in hazardous vocations they are dangerous. Do not trifle with your eyesight. When you need eye-help, see the best—go to a reliable optometrist.
